DHANUSHYA A

AI Enthusiast | Python Developer | Generative AI | Data Science

+91 6380767871 | dhanushyaa.2005@gmail.com | Chennai | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

B.Sc. Information Technology graduate with practical experience in Python programming, data analysis, machine learning fundamentals, and Generative AI tools. Completed a Data Science internship involving data preprocessing, analysis, visualization, and predictive modelling using Pandas, NumPy, and Matplotlib. Experienced in developing Python-based web applications and using AI-assisted tools for coding support. Strong problem-solving, analytical, communication, and teamwork skills, with a keen interest in AI-driven solutions, prompt engineering, and workflow automation.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, Responsive Web Design

Backend: Python, Flask, API Integration

Database: SQL, SQLite

AI & Generative AI: Artificial Intelligence, Generative AI, Prompting, AI Tools

Tools: Git, GitHub

Others: Web Application Development, Debugging, Database Management, Problem Solving, Communication

PROJECTS

1. Smart Medicine Reminder System | Flask · Python · SQLite · SQLAlchemy · JavaScript · Twilio API · Flask-Mail

Developed a Flask-based medicine management application with authentication, medicine CRUD operations, scheduled reminders, activity logging, password recovery, and SQLite database integration.

GitHub: Medicine_reminder_webapp

2. Smart FIR and Status Tracking Portal | Flask · Python · SQLite · Twilio API · Flask-Mail · GitHub

- Implemented role-based access control for citizens and police officers with secure login and FIR management.
- Developed FIR submission/management module with evidence upload, email/SMS alerts, and real-time location tracking.

GitHub: Smart-FIR-and-Status-Tracking-Portal

INTERNSHIP EXPERIENCE

1. Full Stack Development Intern — Wiltech Solutions | *Jun 2025 – Jul 2025*

- Completed hands-on training in web development and Python programming including variables, loops, functions, logic building, and backend scripting concepts.
- Developed web-based Medicine Reminder applications using Python, HTML, CSS, and AI-assisted tools for coding support.
- Gained practical exposure to full-stack development concepts and a professional work environment.

2. Data Science Intern — AdroIT Technologies | *Dec 2025 – Jan 2026*

- Completed focused internship in data analysis, preprocessing, machine learning fundamentals, and predictive modelling.
- Used Pandas, NumPy, Matplotlib, and Jupyter Notebook to analyze datasets, create visualizations, and extract insights.

EDUCATION

B.Sc. Information Technology — PKN Arts & Science College, Thirumangalam, Madurai | *2023 – 2026*

- *CGPA: 7.6/10*

Higher Secondary Certificate (HSC) — State Board, Thirumangalam, Madurai | *2022 – 2023*

- *Percentage: 70%*
